## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Drawings

1. The drawings have been approved.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3,17-18,20,22,23,24 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Northrop (1929255).

Northrop show arms 31 with auxillary control surfaces 28. Wood is a low radar reflective material.

3. Claims 1,3-4,11,17-18,20-21,23-24 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by De Rouge (2120065).

De Rouge show arms 26 pivotally connected to the fuselage or wing with auxillary control surfaces 43. Wood is a low radar reflective material.

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 3644

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 5-10,12-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over De Rouge in view of Beteille (4598888).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the craft of De Rouge with automatic controls since this is a mere modernization of controls as taught by Beteille who teaches that multiple control surfaces are all coordinately controlled.

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 11-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 11 does further limit claim 1.

1. Claims 1 and 19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wooley (6224012).

Wooley shows arms 51 and ground engagement 53 on auxillary surface.

Claims 25 –32 are allowed.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
